

# THE DETROIT FAMILY SUPPORT 360 PROJECT

The Detroit Family Support 360 Project is a **FREE** service available to underserved families who have a family member with a developmental disability. The Detroit Family Support 360 Project will work to preserve, strengthen and maintain the family unit.

Each family will be assigned a *Family Support Navigator*. The Family Support Navigators make home visits to your home. The Family Support Navigators assist the family by identifying the family's needs, identifying possible resources of support, and by connecting families to services and supports.

## Eligibility Requirements:

The family must meet the following criteria:

- ◆ Include a child (under the age of 18 years old) with a developmental disability
- ◆ Reside within the City of Detroit
- ◆ Be underserved and/or unserved by the family support service system

**All information and inquiries are and will remain confidential.**
